-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

This office action is in response to amendment filed April 19, 2004.

Response to Arguments

1. Applicant's arguments with respect to claims 16-23 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 16, and 23 are rejected under 35 U.S.C. 102(e) as being anticipated by Raynbum (US. PUB No. 2002/0097613).

As per claims 16, and 23, Raynbum teaches a method of controlling a semiconductor memory device having an auto precharge function of automatically performing a precharge operation in accordance with an access instruction (paragraph 54), comprising the steps of: receiving a request for access to the semiconductor memory device; determining whether or not the access instruction for enabling the auto precharge function is supplied to the semiconductor memory device based on the

received access request (paragraph 54); and supplying the access instruction for enabling the auto precharge function or the access instruction for disabling the auto precharge function to the semiconductor memory device in accordance with a result of the determination (paragraph 57).

Allowable Subject Matter

4. Claims 2-15, and 22 are allowed.
5. Claims 17-21 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
